

# KIRTI PATEL | WEB DEVELOPER

☎ (514) 574-8186 | ✉ kirti18patel@yahoo.com | 🏠 Montreal CA  
🌐 linkedin.com/in/kirtipatel18

## SUMMARY

- Overall 1+ years of experience in Web Development specifically front-end designing.
- Practical experience of working with technologies like **JavaScript, HTML5, CSS3, JSON, Python, SQL**
- Solid Understanding of **Python, MS Tools, Web Engineering**
- Strong verbal communication skills and Passion for learning and adopting new technologies.

## SKILLS

<b>Programming Languages</b>	:	C, C++, Python, Java, JavaScript
<b>Web Technologies</b>	:	HTML5, CSS3, SCSS, jQuery, React, Bootstrap
<b>Database Technologies</b>	:	MySQL, node.js
<b>SDLC Methodologies</b>	:	Waterfall, Iterative, Agile
<b>IDEs</b>	:	PyCharm, Visual Studio, Workbench, Github
<b>Others</b>	:	JSON, AJAX, Linux, Windows, WordPress

## WORK EXPERIENCE

### Junior Web Designer

August 2018 – August 2020

#### Alliancotech, MP, India

- Mentor students to develop programming skills in **C, C++, Python, HTML, CSS**
- Teaching theoretical subjects especially **OS, Data Structures** and **Database**.
- Make students friendly with **Web Engineering** for industrial use.
- Review and evaluate the activities and progress of students.
- Prepare exercises, lessons, lab experiments and exams for students.

### Web Designer – Internship

August 2018 – August 2020

#### Onetech Solution, MP, India

- Mentor students to develop programming skills in **C, C++, Python, HTML, CSS**
- Teaching theoretical subjects especially **OS, Data Structure**.

## PROJECTS

### Educational Supply Inventory Manager

- Designed and Developed a website for Managing essential supplies for education.
- Faculty can login and order educational supplies within stock availability in college.
- Send order automatically to the linked vendors if stock gets lower than minimum limit.
- Designed frontend of website using HTML, CSS, JS
- Created website backend using Python with JSON.

### Shop House

- Created a shopping website where user can buy any of the listed items.
- Shows items smart search and ask preferences to show items while registering on the website.
- User can also directly contact registered sellers on website by email or contact number for bulk orders to get special discounts or can price match as well.
- User can also fill a requested inventory form if any item, for which user is looking for, is not available on the website.
- Created using PHP, HTML5, CSS3, and JS.

## Password Manager

- User can save their passwords securely by encrypting all data and user authentication.
- It also allows user to generate strong password or can choose their own password.
- Very handy to use, interactive and play important role in managing passwords.
- Created using Python with JSON.

## SQL Query Editor

- Developed editor where user can run SQL queries within certain predefined queries.
- Return result in the form of tables after validating query enter by user.
- User interactive and easy to handle.
- Created using Python, SQL

## EDUCATION

### Certificate Course in Web Development Coding

September 2021

University of Toronto, Canada

**Focused on:** HTML5, CSS3, SCSS, JS, jQuery, Bootstrap, JSON AJAX, node.js, Agile Development, Github

### Master of Technology in Computer Science and Engineering, CGPA: 8.44/10

June 2019

SRIST College, MP, India

**Focused on:** Object-Oriented Programming, Internet of Things, Web Programming

### Bachelor of Technology in Computer Science and Engineering, CGPA: 8.16/10

June 2016

SRIST College, MP, India

**Focused on:** Algorithms and data structures, Database Designing, Software Design methodologies, Web Engineering.

## CERTIFICATES

Python Advanced Bootcamp, [www.udemy.com](http://www.udemy.com)

Learning Advanced SQL, [www.udemy.com](http://www.udemy.com)

Learning ReactJS, [www.linkedin.com](http://www.linkedin.com)

Learning Azure DevOps, [www.linkedin.com](http://www.linkedin.com)

Angular Essential Training, [www.linkedin.com](http://www.linkedin.com)

Learning JAVA, [www.linkedin.com](http://www.linkedin.com)

C course, Swayam Technologies, MP

Voice Controlled Robots Workshop, IIT, Kharagpur

Cloud Computing Training, APPIN Technology Lab, MP

## SOFT SKILLS

Inquisitive

Team Spirit

Strategic Planner

Multitasking

## Languages

**English** - Excellent proficiency for professional as well as informal communication

**French** - Basic understanding (Digging deep in the language)
